Director
Intelligence Community Staff
Washington, D.C. 20505

31 August 1981

MEMORANDUM FOR: National Foreign Intelligence Program Managers

SUBJECT: Congressionally Directed Studies

REFERENCES: A. [] 8 May 1981, SSCI Classified Annex
B. [] 22 May 1981, HPSCI Classified Annex
C. [] 14 July 1981, DCI Appeal to Authorization
Conference

25X1

1. Reference C forwarded to addressees the DCI's appeal to the HPSCI and SSCI chairmen for consideration by the authorization conference. The final section of the DCI's covering letter addressed the issue of Congressionally directed studies and reports and was based on informal inputs from the staffs of the various programs where responsibility for drafting responses would logically lie. The purpose of this memorandum is to confirm our understanding of action and coordination responsibilities and to insure that no study is overlooked because of uncertainty as to tasking.

2. Attached is a list of Congressionally directed studies expected as a result of the authorization process. The list indicates who has primary Community action and notes other interested offices. Due dates are those assigned by the committees, in some cases modified by request in the appeal letter. Without unduly cutting into the time available for preparation of the reports, we would like to be certain that all Community entities with a legitimate interest in the subject matter are consulted before final delivery to the Hill; therefore, we have added a line headed "date due DCI for review," approximately 8-10 working days prior to the Congressional due date. If the action office has sole responsibility for the report or has arranged for interoffice coordination during the preparation process, then this review time can be substantially reduced. The Intelligence Community Staff would like to be kept apprised of the status of reports in preparation and to have a final look at the product before it goes to Congress.

SUBJECT: Congressionally Directed Studies

3. We will put out a monthly status report to the Community similar to the one attached (or changed to incorporate addressee suggestions, which we are soliciting). We ask addressees to keep in contact with their program monitor and to apprise these officers of any problems with report preparation or coordination. The most important thing is that everyone agree as to who has primary responsibility for studies; if there is any question about this, please notify immediately. The Office of Community Coordination will be the office of record for retention of studies completed and will be happy to serve as a focal point for queries from the committees.
